Pleasure '03

SMOKER CRAFT

This book is dedicated to family, commitment and emotions that run deep. Like the excitement you feel the first time your daughter gets up on her skis. Or the pride as your son reels in his first keeper. And the satisfaction of being able to ferry the whole gang, grandparents and all, across the lake to your favorite fish-fry. You see, when you think about boating, you're really thinking about the time you'll spend with family and friends. And about the added dimension the right boat will bring to your lives together.

At Smoker Craft, this is why we build boats. To celebrate all that the water has to offer — by bringing you some of the most exciting pontoons, runabouts, and deck boats in the industry. For three generations, families across the country have relied on our high-quality construction and top-of-the-line features — while our special value packages have helped make it all come true.

And this year is no different. Because inside these pages, you'll not only find truly great boats and exceptional values, you'll see the full expression of our family's commitment to yours.

Pleasure '03

SMOKER CRAFT

Quality

At Smoker Craft, we offer many different models to meet many different needs. But at the heart of each and every one is a well-constructed, thoughtfully designed boat that's built to last. After all, we wouldn't put our name on anything less.

Service

We believe that customer service begins right here at the factory — with our commitment to our dealer network and our promise to stand behind every boat we build.

History

When you get a Smoker Craft, you're getting the benefit of three generations of experience. Three generations of research and development. And three generations of relationships with the very best vendors and suppliers in the industry.

Nationwide Sales and Support

Our nationwide dealer network offers expert sales and factory-authorized service to water-loving families across the country. Visit our web site at www.smokercraft.com to locate the dealer nearest you.

Construction

At Smoker Craft, we're proud to offer the best construction in the industry. You'll find the same high level of quality materials and processes across our entire line of boats. From the hat-shaped ribs and raked-back bow design of our aluminum V-hulls to our labor-intensive 7-layer fiberglass construction to the heavy gauge, welded chambers of our pontoon tubes. You can be sure your Smoker Craft is solid from stem to stern.

Safety

Every Smoker Craft boat is built to exacting standards set by the U.S. Coast Guard. From flotation and fuel systems to wiring looms, boat beams, depth and freeboard — Smoker Craft boats are among the safest on the water.

Broad Product Line

At Smoker Craft, our family loves boating as much as yours does. And maybe that's why we continue to offer so many different models and product lines. Fishing, cruising, skiing — simply pick your family's favorite activities and chances are, we've got a package that's perfect for you.

Resale Value

With thousands of Smoker Craft boats on the water today, Smoker Craft is one of the most popular and recognized names in the industry. For you, this popularity translates into higher resale values when it comes time to upgrade.

Innovative Engineering

When it comes to engineering, the little things add up to a big difference. Ideas like welded tubes, aluminum hat channels, full-length keels, anodized railings and 7-layer fiberglass construction to name just a few. Simply put, our research and development team keeps Smoker Craft well ahead of the curve.

Financial Stability

You don't stay in business as long as we have unless you've earned the financial confidence of a vast number of dealers, suppliers, employees and customers. Just one more reason to feel good about becoming part of the Smoker Craft family.

For your peace of mind, we back our pontoons with industry-leading lifetime warranties on the decks, tubes, and transoms.

Features

CONSOLE

Select models feature our custom-molded consoles with deluxe gauges, and all of our consoles are ergonomically organized, with easy-to-read dials and easy-to-reach switches and circuit breakers. Many of our fiberglass models also feature tilt steering, along with either hydraulic or anti-feedback steering. And, on dual console models, you'll also find beautiful walnut grain and such amenities as a lockable glovebox and molded cup holders.

SEATS

Comfort reigns throughout your boat, thanks to our advanced seats with pinch-proof hinges, contoured bottoms and backs, and resilient foam padding. Our wood-free construction ensures that the seats won't warp or rot.

APPAREL

To complete the package, we offer an exclusive line of Smoker Craft shirts, jackets and hats. For your convenience, you may order online by visiting our website at www.smokercraft.com.

CONSTRUCTION

COMMITMENT RUNS IN THE FAMILY.

For three generations, the Smoker family has been committed to building high quality, feature-packed boats for water-loving families across the country. Your Smoker Craft fishing boat is the result of the best ideas in design and engineering. Take a closer look, and you'll find that every detail is constructed to give you the ultimate in safety, comfort and control.

TOPS, CURTAINS AND COVERS

To help you make the most of your time on the water, we offer a wide range of tops, curtains and covers. For pontoons, the bimini and double tops provide maximum versatility, while the camper top features windows you can open and close, and the playpen cover keeps leaves, twigs and other debris out of the boat. Our fiberglass runabouts come standard with a color-coordinated bimini top, and many models offer optional side and aft curtains, as well as bow and mooring covers.

MERCURY ENGINES

Smoker Craft is proud to offer a full line of reliable Mercury and MerCruiser power options.

MERCURY
The Water Calls

Creating quality experiences, layer by layer.

CROSS CHANNELS

There's no substitute for a strong foundation — and that's what you get with our 8' (or 8.5') x 6" x 1/8" aluminum hat channels. They are double through bolted onto deck risers every 24" for exceptional support and structural integrity, and they actually double the amount of Z-channels used in other pontoons.

GATES

For maximum safety, you'll find pinch-proof protectors and Posi-Lock® latches on the gates of all our pontoons.

DECK

We have so much confidence in our floors that they carry a lifetime, transferable warranty. Every pontoon features 3/4" Marinetech FTP 7-ply pressure-treated plywood that won't warp or rot. And the floor is securely through-bolted and screwed to the hat channels for a powerful hold.

CARPET

Our seamless plush pile carpet, up to 32 oz., is made of 100% U.V. stabilized polypropylene and has a five-year warranty. For extra durability, we bond it to the deck with marine adhesive and 200 lbs. of rolling weight, while stainless steel staples secure it to the perimeter of the deck.

SPACERS

Our pontoons feature 3/8" spacers between the fence bottom and the deck, allowing water to drain easily and cutting carpet drying time in half.

FENCING

Your pontoon's fencing is as attractive as it is durable, thanks to the .030 grooved aluminum panels which are foam-backed to prevent rattling and feature supplemental cross members for added strength. Anodized railings serve to prevent the build-up of unsightly black residue.

FULL-LENGTH KEEL/SKID BAR

Our tubes feature a 1/2" aluminum keel running the full length of the tube. This provides maximum protection for the tubes while trailering and serves to deflect debris, enhance steering, and help prevent drifting.

TUBE CONSTRUCTION

Because so much is riding on the tubes, we back ours with a lifetime warranty. Unlike other manufacturers', our tubes are heavy gauge (.080) with welded chambers to keep the pontoon afloat even if a section becomes punctured, and they feature rear anti-electrolysis drain plugs for easy draining. In addition, our air-filled tubes make the pontoon lighter, giving you more power and better fuel economy.

NOSE CONE

Our nose cone knifes cleanly through the water, with two 13" fins deflecting water away from the boat, giving you a smoother, drier ride. The anti-puncture skid bar runs the entire length of the tube for added protection and steering control. And an extruded aluminum cap adds strength to the cone and protects you from sharp edges.

LOUNGE FURNITURE

The comfort and durability of our lounge furniture starts with reliable Rotocast bases which provide dry underside storage areas. Our thick foam padding is treated with biocide, and our 33 oz. high-grade marine vinyl features a stain resistant topcoat that protects the beauty of the furniture for years to come.

ALUMINUM BOTTOM SKIN

Select pontoons feature our aluminum bottom skin, for a smoother glide that helps your engine operate more efficiently and saves you fuel, even at higher speeds.

NOTE: Because weight distribution is extremely important when operating a pontoon boat, passenger weight should be distributed evenly for best overall performance. Also keep in mind that a four-stroke engine is much heavier than a two-stroke engine, significantly increasing the weight load in the stern. Check with dealer for performance evaluation and weight differential for four-stroke and two-stroke engines.

YAMAHA ENGINES

The choice is yours. To ensure that you get the power you want for your Smoker Craft, we offer a full line of Yamaha® outboards.

MARINE GEL COAT

For a high-gloss look that lasts for years, our fiberglass boats are finished with an ISO NPG marine gel coat that resists chipping, cracking and fading.

7-LAYER CONSTRUCTION

All our fiberglass boats feature our exclusive 7-layer construction process. This begins with our superior hand-polished and waxed molds and continues through every detailed step to the final hand rolling, ensuring the elimination of unwanted air pockets.

STRINGER SYSTEM

The strength of the hull comes from our pre-assembled, interlocking stringer system, built with pressure-treated wood. It is thoroughly encapsulated in fiberglass and laminated to the hull with superior 2415 Fab-Mat for added reinforcement.

WARRANTY

Smoker Craft warrants each new fiberglass hull for a period of five (5) years, from the date of purchase by the original purchaser (based on years of use under normal recommended operating conditions) as described in the warranty folder. A copy of the Smoker Craft Limited Warranty is attached to each new Smoker Craft boat, or may be obtained from any dealer or the Smoker Craft factory.
