# CELEBRATING The American Angler

[www.smokercraft.com](http://www.smokercraft.com)

**SMOKER CRAFT**  
American Angler Series

# Exceptional From Start To Finish

Smoker Craft's Western plant in Stayton, Oregon created The American Angler Series to reflect the demands of serious sport boaters. With 20 distinct models ranging from 12' to 20' these boats are as versatile as the people that own them. Fish, hunt, cruise, crab, camp and explore, Smoker Craft's American Angler Series will take you wherever you want to go and is perfect for everything you do.

Deep, wide, stable designs that deliver more for your boating dollar than any other boat in their category. The American Angler Series is constructed from super-tough marine aluminum using state-of-the-art engineering and construction standards. Double riveted seams, one-piece bottoms and proprietary rib construction combine to make the Osprey, Tracer, Lodge and Alaskan series boats exceptionally strong and safe. All-welded construction in the Sportsman series has established a new class of sport boat that's versatile as it is durable.

Trust your boating to Smoker Craft and The American Angler Series. With tens of thousands of satisfied customers, unparalleled experience and hundreds of committed dealers nationwide, you win when you choose Smoker Craft...the first family of boats.

# AIRS

## A.I.R. RIB SYSTEM

The choice is clear! Our exclusive Advanced Integrated Rib System utilizes hand-fitted, hat-shaped ribs for superior longitudinal strength and rigidity that simply outperform our competitors' double-plated aluminum.

## SUPER SEATS

Exceptionally thick cushioning, lateral support and an innovative seat design add eye-catching appeal and comfort. Roto-molded seat bottoms and back won't rot or warp, added lumbar support keeps you comfortable day-in and day-out. Standard equipment on 16' - 19' Osprey DLX models.

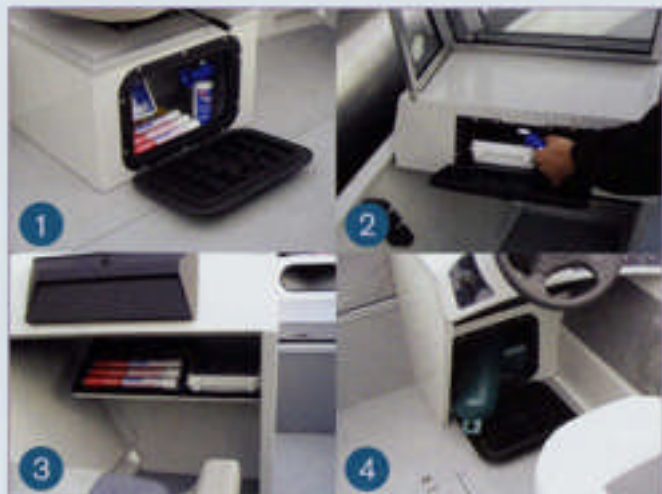

## 5 Keel Construction

In addition to Smoker Craft's one-piece bottom and AIRS construction is the unique 5 external bottom keels that add even more strength to the bottom as well as assist in the overall performance of the boat. These keels help protect the bottom, add longitudinal strength and enhance the tracking and planing characteristics of each boat. Bottom keels help provide necessary control for carving through a turn or holding a line while trolling, without them the boat won't handle properly.

## BOUNTIFUL STORAGE

Several American Angler models feature innovative storage areas. Smoker Craft knows you can never have enough storage which, for American Angler Series boats, is a design priority. From under-dash storage in some Osprey models and the Pro Tracer, to storage box seating in most Lodge and Tracer series models, you'll find American Angler Series boats loaded with useful storage opportunities.

- 1 Under-Seat Storage
- 2 Glove Box
- 3 Under-Console Storage (Port)
- 4 Under-Console Storage (Starboard)

## ONE-PIECE

It's something very few manufacturers do, but it's essential to achieve optimum performance, superior strength and achieve the consistency the engineers intended. Every Smoker Craft starts with a one-piece bottom using a super tough marine-grade alloy, it's the foundation the rest of the boat will be built around. Simply stated, a one-piece bottom assures you'll get the most out of your boating experience.

# SMOKER CRAFT

## American Angler Series

# Osprey Series

## Versatility At Its Best

The Osprey Series has become a perennial favorite among serious boaters throughout the West. From the 19' that has withstood the test of some of the nation's biggest and most demanding waters to the 16' Osprey that runs and handles beautifully in an easy-to-own length, these are serious fishing boats backed by careful engineering that transform horsepower into bristling performance. Deep, wide, stable and loaded with features take a close look and see the definition of "true boating value."

# 185 Pro Tracer

## Pro Performance Affordably Priced

The new Pro Tracer is an exciting development in mid-sized fishing boats. Using Smoker Craft's exclusive Gull Wing bottom design, the Pro Tracer planes quickly with the running characteristic of a performance hull. Easy-to-trailer and handle, the 185 Pro Tracer is available in open and closed bow models. The closed bow 185 Pro Tracer features a ground-breaking modular design that only takes a few minutes to remove. Look at the standards, storage and space in this boat and you'll find Smoker Craft delivers a level of value in the 185 Pro Tracer that is as refreshing as it is impressive.

# Tracer Series

## Answer The Call Today

Smoker Craft's Tracer gets you to the water in a design that's tailor-made for year-around fishing. The Tracer boasts big boat features at a small boat price like: rod storage, storage box seating, walk-thru windshield, bow rails and integrated consoles with storage shelves. Don't miss a moment of the action this season... with the Tracer you can answer the call.

### GLOVE BOX

Handy glove box keeps your personal items right at hand.

### STORAGE BOX SEATING

Keep your gear stowed and out of the way in the Tracer's useful storage box seats.

### UNDER-CONSOLE STORAGE

Keeps everything neat, out of the way and within close reach.

# SMOKER CRAFT

## American Angler Series

# Sportsman Series

## All-Welded All-Seasons Versatility

Have it your way! Open, center console or side console configurations. Smoker Craft's Sportsman Series is as versatile a boat as you'll find. Used as lodge boats in Alaska, bass boats in the lower 48, jet boats on a number of Western rivers, and duck boats across the U.S., these are do-it-all sport boats. All-welded construction and thick materials make Smoker Craft's Sportsman particularly tough. A gentle bottom vee softens ride and integrated bottom keels provide lift and control. The layout is open and unencumbered with optional seating and rigging packages that transform Smoker Craft's Sportsman into your signature Sportsman. Fish, hunt, crab or cruise...your opportunities are endless in a Smoker Craft Sportsman.
