SMOKER CRAFT

AMERICA'S FIRST FAMILY OF BOATS

THE FIRST THING TO LOOK FOR IS OUR FAMILY

Barney Smoker—Founder

"Being a family-oriented business has a lot to do with our success. Since our name is tied to the product, we feel a greater responsibility to our customers as far as quality is concerned."

It's no wonder Smoker Craft is known as America's First Family of Boats. When you see the Smoker name on a boat, you're guaranteed it's one of the best you'll find, designed to provide you and your family with

years of safe, dependable boating enjoyment.

Smoker Craft has been successfully building family boats for over 30 years,

and we've done it by sticking to one simple philosophy: Build a quality product you can be proud of, and that people will enjoy.

That philosophy has served us well, especially because we're building boats for two of our favorite reasons: fishing and families.

We love to fish as much as you do, so we know how to build fishing boats everyone will enjoy, packed with intelligent, practical features. There's so many to talk about, it's hard to know where to start.

Like plenty of space, a more-than-generous amount of storage room and comfortable, movable seats.

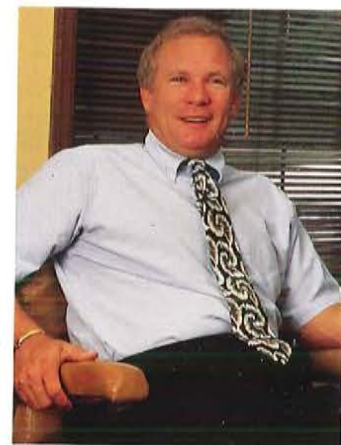

Live wells with recirculating pumps and timers, custom-molded consoles with room for several graphs, bait wells, built-in tackle trays, Alpha carpeting, trolling motor panels—the list just keeps on going.

And each boat is built Smoker Craft-tough, with the thickest, strongest hulls available. We use the same double riveting process used in airplane construction for better stress-flex, greater strength and durability than welded hulls. Five keels for stability and longitudinal strength, up to 13 ribs for lateral strength, floors built with specially treated

wood and so much more provide you with long-lasting safety, performance and protection.

As much as we love fishing and quality fishing boats, we consider something else even more important: our families. Smoker Craft is a family company, and we want other families to enjoy our boats as much as we do.

That's why many of the same features that make our boats so popular with fishermen are also why our boats are so well-liked by families.

Doug Schrock—President

SMOKER

AMERICA'S FIRST FAMILY

R IN A FAMILY BOAT NAME.

You'll find roominess and comfort in every boat, from our fishing boats to our pontoons, with plenty of amenities to help your family enjoy their time on the water. The rock-solid construction, the long list of features, their affordability and long-term value; all these and more are among the reasons Smoker Craft boats hold such

tremendous family appeal.

More importantly, though, is the fact our boats are safe.

They're built by people who care enough to make sure each step in the manufacturing process is done right. Each boat is leak tested, and subjected to a rigorous testing program to ensure its quality. Our level flotation

Doug Smoker - Vice President

tests exceed the required levels set by the United States Coast Guard.

No detail is too small where safety is concerned. For example, our removable seats feature special pinch-proof hinges, and our Boater's Safety Checklist is a helpful reminder to safely prepare your boat each time you take it out.

Beyond their superb craftsmanship, knowing each aluminum boat is backed by our strong 10-year limited warranty, and pontoons by the XL50/50-year floor warranty, gives you and your family peace of mind.

While we offer a complete line of boats to fill every boating need, we're not concerned with being the biggest boat company around. We get our satisfaction from staying with our philosophy of building quality, affordable family boats. That's why when you see our family name on a boat, you know it's just right for your family.

*All boats using greater than 115 H.P. outboards should have dual or hydraulic steering.

10 YEAR LIMITED WARRANTY

At Smoker Craft, quality and reliability are built into every boat we make. All of our aluminum boats are backed by a 10-year floor warranty. Over the past several years we have experienced

tremendous growth. We know this would not have been possible without high quality products and satisfied customers. Keeping you satisfied will always be our highest priority.

ACCESSORIES

Smoker Craft offers a wide range of accessories which add function and versatility. Live wells, windshield accessories, side steering consoles and swivel seats with arms are fishing boat accessories available separately. Mooring

covers and pontoon furniture covers are other selections available. Don't forget Smoker Craft jackets, shirts and hats to complete your outdoor wardrobe.

The specifications of any Smoker Craft boat are subject to change without notice. Information on the Smoker Craft warranty is available upon request. Please direct all inquiries to the Smoker Craft corporate office.
